2. The data, as noted above has been reviewed to assess and improve the effectiveness of the Department's sexual abuse prevention, detection and response policies, practices and training.
 - A. **Identify problem areas:** The District completed an incident review for the incident that needed a review. We continue to develop a culture of zero tolerance for sexual abuse and sexual harassment and encourage staff to be mindful of potential areas of concern.
 - B. **Any corrective action taken for each facility and the Department as a whole:** -Please see above response.
 - C. **Comparison of current data collected to previous years-**In 2016 there were 9 incidents that lead to PREA investigation, in 2017 there were 7, in 2018 there were 12 and in 2019 there were 5. This decrease may be attributed to moving females out of the Hinzman Center and repurposing the male dual diagnosis Anchor Center to the gender responsive Anchor Center for Women. We will continue to monitor both the numbers of complaints and type of complaint as part of our annual review process to ensure we are responding as effectively as we can.

- D. **An assessment of the Department's progress in addressing sexual abuse.** We continue to educate all new staff, veteran staff, volunteers, and contractors about how to prevent, detect and respond to sexual abuse and sexual harassment and the importance of adhering to the PREA standards. The Department has 6 PREA investigators to enhance our ability to respond to PREA complaints in a timely and efficient manner. All the residential facilities in the Sixth Judicial District have successfully passed their PREA audits.
